## HOLDERS BACKUP CLOCK

### HOLDERS BACKUP CLOCK

Part No. HOL-7162

Provides 12 hours protection against loss of power\time on a Casambi network.

#### Directions for use:

Select a position for the Backup Clock within range of a constantly powered device on the Casambi network.

Plug the Clock in and ensure it remains powered at all times to maintain a charge.

Add the Backup Clock to the Casambi Network using the Casambi App.

In the event of total power loss to the building the Backup Clock will maintain the correct time. On restoration of power the Casambi Network will resume timed operation.

CAUTION: NOT suitable for exterior use, do not place in hot or humid location.

CAUTION: Do NOT disassemble the UPS unit.

CAUTION: In case of a red warning light on the UPS disconnect the unit and contact your supplier.

Please recycle this unit in accordance with local regulations.
