Holders Technology Plc (the “Company”)

Proposed share buy back

Holders Technology, the supplier of special laminates and materials to the electronics industry, intends utilising existing authorities to buy in up to 245,000 ordinary shares, representing approximately 5.89 per cent. of the Company’s issued share capital. Any shares purchased will be held in treasury and utilised to meet the exercise of share options in the future. The Company has currently granted options which, on exercise, would result in the issue of a further 245,000 shares.

The Company was authorised to make market purchases of its own shares at the Annual General Meeting held on 30 April 2007.

Blue Oar Securities, the company’s broker, is co-ordinating the proposed share buy back. If shareholders wish to sell some or all of their shares for purchase by the Company, their stockbroker is required to contact Jerry Keen at Blue Oar Securities Plc before 3pm on Friday 2 November.

The price paid for shares purchased in the buy back will be subject to demand and the Company is not proposing to purchase any shares above a price of 158.5p per share, the mid-market closing price on 31 October 2007.
